FROM: Holland Shepherd, Senior Reclamation Specialist *HCS*

RE: Site Inspection, Western Industrial Minerals, Moon #4 Mine, S/037/079, San Juan County, Utah

Date of Inspection: July 15, 1993
Time of Inspection: 2:00 - 3:30 p.m.
Conditions: Sunny, hot
Participants: Holland Shepherd, DOGM

Purpose of Inspection: To look at any mine development that may have happened since the mine notice was submitted about 2 months ago.

I could find no evidence of mining whatsoever at this site. I followed a dirt road for 3-4 miles, that had been indicated on the operator's map. The dirt road was never graded to any kind of condition that haul trucks could use. The dirt road eventually turned into just a simple two-track jeep trail. There is no mining going on at this site at this time.
